EUROPE & USA: Islam is destroying Western culture

COMMON SENSE VS NONSENSE: Republicans vs Democrats

AOC: She and other radical Democrats lead their party

OPINION: Thomas Budds has a suggestion for AG Pam Bondi re: Epstein

★★★★★★★★★★★★

"So, basically taxpayers paid for the creation of the Covid-19 virus through USAID and then paid the mainstream media to brainwash them about masks, vaccines, and lockdowns? It's unbelievable what these sick people did to us.

—Robert F. Kennedy, Jr., Secretary of Health and Human Services

March 2025

ISLAM IS DESTROYING WESTERN CULTURE

E U R O P E

If you wish to experience Europe with all its unique nations, hurry because the

entire continent is rapidly changing due to (legal and illegal) unchecked Islamic immigration, demographic shifts, and political pandering. Even with no future immigration, Muslims in Europe will increase their population. They are giving birth at a much higher rate than non-Muslims: 2.6 children compared to 1.6 children. It doesn't take a mathematician to see where this goes.

In 2006, Muammar Gaddafi said:

> "We have 50 million Muslims in Europe. There are signs that Allah will grant Islam victory in Europe—without swords, without guns, without conquest—will turn it into a Muslim continent within a few decades."

Most European leadership is blind to what is happening—or doesn't care.

If you visit Europe, know where you are walking. The Migration Research Institute in Budapest, which is affiliated with the renowned Matthias Corvinus College, estimated in 2024 that there are 900 NO-GO ZONES across Europe. This is the result of Europe's open-border policies that brought in an influx of Muslims who do not wish to assimilate into their adopted homeland. Instead, they want their adopted homeland to become an Islamic "Sharia paradise."

German playwright Botho Strauss wasn't afraid to say what many have been thinking:

> "In the course of the demographic change due to the majority of Muslim population in the metropolises expected in the near future, other priorities could emerge with respect to tolerance and diversity. How ridiculous and senseless then it is to continue with the tired and saccharine tones of 'tolerance' towards a class of people who in our cities are rising to the majority."

Throughout Europe, if you say anything about what is happening to your country or continent due to the influx of legal or illegal radicalized Muslim immigrants, you're quickly called Islamophobic—and possibly arrested. For example, Member of Parliament Paul Scully was verbally attacked in February for appearing on BBC Radio London, where he responded to another MP by saying:

> "There are areas where there are a tiny minority of people who make people uncomfortable about not being of their religion, of their culture, who are misinterpreting their own doctrine. That's not to say Tower Hamlets itself is a no-go area."

Scully was quickly criticized for even implying that London has any no-go areas. The BBC quoted a source close to London's Mayor Sadiq Khan:

> "Unfortunately, Paul Scully is resorting to a notorious Islamophobic trope - with the highly offensive and untrue claim that there are 'no-go' areas for non-Muslims in parts of London."

British Prime Minister Keir Starmer calls anti-immigrant "far right" as if it's a bad thing to want to protect your homeland from an Islamic invasion. Just ask the people in Wethersfield, England who will only whisper the truth about what asylum seekers are doing to their once quaint village.

ISLAM IS DESTROYING WESTERN CULTURE

U N I T E D S T A T E S

But what about America? Well, it's here, too.

Paterson, New Jersey, once a solid blue-collar city, has morphed into Palestine, New Jersey. In 2022, Main Street was officially changed to Palestine Way. Guess which day they officially made the change? On Israel's Independence Day.

In "New Jersey's First Islamic City," Amy Mek, writing in RAIR Foundation USA (Rise Align Ignite Reclaim), points out:

> **"Muslim elected leaders with deep ties to radical Islamic organizations are prioritizing Islamic identity over American values, steering Paterson away from its historical roots. Every policy change, symbolic gesture, and political appointment moves the city closer to becoming an Islamic enclave."**

Just 30 miles from Dallas, Yasir Qadhi, a Pakistani American imam and theologian, is building a self-contained Muslim Sharia city of 1,000+ homes in East Plano, Texas.

Hillel Fuld, an American Israeli technology business advisor, blogger, and vlogger with a large following, posted on X:

> **"If the west doesn't wake up soon and start recognizing how radical Islam is penetrating every pillar of society, if people don't stop labeling anyone who acknowledges the agenda of radical Islam an Islamophobe, if we don't reverse the trajectory that we're on, western civilization will join every other empire that threw morality out the window right before its demise.**
>
> **The west is falling, and radical Islam is rising. *Pictured: New York City.***

> **Please, people, wake the hell up. This shouldn't be a political issue of the left and the right. This is a question of survival and if we don't open our eyes soon, radical Islam will accomplish its goal and achieve its mission. They state it clearly. They (Islamists) want the destruction of the west. They're using our politicians, our students, and our youth to spread the very dangerous cancer that is radical Islam. We need to diagnose the cancer and administer chemotherapy immediately.**
>
> **Time is not on our side and history is quite clear about what happens next. I hope I'm wrong. But I'm not. I never, in my wildest darkest dreams imagined I'd see Americans marching in the streets of New York calling for the murder of Jews and declaring their support and loyalty to genocidal terrorist organizations full of murderers, rapists, and pedophiles. But here we are. Wake up. We are approaching the point of no return."**

Of course, not every Muslim is looking to kill Christians, Jews, Buddhists, Hindus, and other non-Muslim people. But what if only 1 percent of the world's Muslims want to harm "infidels"? One percent doesn't sound like that much, does it? However, as of 2020 there were over 1.8 BILLION Muslims in the world. That's more than 25 percent of the world's population, second after Christianity.

If just 1 percent of the world's Muslim population is violently radicalized, that would equal *18 million* Islamic jihadists. Ah, but we keep hearing that Islam is the religion of peace. Look at Syria, Africa, Europe, Israel and the United States for proof that Muslims are murdering Christians and Jews.

Leftists in Europe and Democrats in America refuse to respond to growing radical Jihadist threats. Instead, in cowardly fashion, they call us "Islamophobes" because we express valid concerns about radical Islam destroying Western civilization. Maybe leftists in America and Europe should learn how to say "Auschwitz" in Arabic.

REPUB COMMON SENSE vs DEM NONSENSE

Today's Democrat Party is in disarray because they stand for nothing and make little to no sense in the process. For instance, leftists howled about climate change being THE most important issue of our lifetime. Repeat – THE most important issue of our lifetime.

They demanded that gas appliances be replaced with electric appliances. They demanded that gas vehicles be replaced with electric vehicles. For years, they celebrated Elon Musk and Tesla manufacturing quality electric cars.

Yet today Democrats are rampaging through Tesla dealerships and torching Tesla ELECTRIC cars.

Common sense Americans understand that climate change was never the issue. Climate change was just a smoke screen for control.

The smoke has cleared. This is today's Democrat party:

- **Defunding the police**
- **No voter ID needed to vote**
- **Transgender children without parent's knowledge**
- **Creating sanctuary cities that welcome illegal alien invaders**
- **Putting illegal aliens ahead of veterans and other Americans in need**
- **Abolishing ICE to allow criminals to enter and remain in the United States**
- **Taking guns from law-abiding citizens**
- **Censoring conservative voices**

- Promoting critical race theory
- Promoting DEI & other woke policies
- Allowing abortion on demand
- Letting MALES play in female sports and injure females
- Defending fraud, waste and abuse in government spending
- Offering student loan forgiveness
- Embracing pro-terrorist rallies on college campuses
- Silence at rising anti-Christian and anti-Semitic words and actions
- Not requiring cash for bail

FOLLOW-UP—AOC is Democrat Party's leader

Last week, we warned about writing off Representative Alexandria Ocasio-Cortez,

better known as AOC, as a clown offering us humor with her asinine comments and antics. Texas Representative Jasmine Crockett is a close second. Remember, AOC supports everything we just listed as today's Democrat Party's nonsense values.

Our article shared how Europe and America initially thought that Adolph Hitler and Benito Mussolini were buffoons. Look how that turned out.

A recent CNN poll found that while Democrats overwhelmingly view President Trump as an extremist (because adhering to the U.S. Constitution and offering common sense policies is extreme to Democrats), these are the folks who "best reflects the core values" of the party when seeking someone to LEAD the party:

- 10% - Alexandria Ocasio-Cortez, New York representative
- 9% - Kamala Harris, former vice president
- 8% - Bernie Sanders, Vermont Senator (calls himself a Socialist Democrat)
- 6% - Hakeem Jeffries, House Minority Leader, New York representative
- 4% - Jasmine Crockett, Texas representative
- 4% - Barack Obama, former president (2009 - 2015)
- 2% - Chuck Schumer, Senate Minority Leader

At the same time, consider that the most outspoken nuts on the left are in secure districts. That is why AOC and Crockett can say the dumbest things and not worry about it. Crockett's Texas district in Dallas is rated by the *Cook Political Report* as D+27. AOC's New York district is rated D+28.

You will be shocked at how much money we give to many colleges!

GUESS—A guy tried to steal her invention

Do you put your groceries in brown paper bags? Have you ever had a brown bag

lunch? Paper bags are one of the items we frequently use without giving them much thought. But someone in the 1860s gave it A LOT of thought and designed a machine that would manufacture the bags. Until then, brown bags had been made by hand. But someone tried to steal HER design!

Who invented the paper bag machine?

THE UNITED STATES OF AMERICA

Some events from around the nation:

- **FEDERAL EMPLOYEES—** In 1962, President John F. Kennedy (who many believe would not be welcomed in today's communist Democrat party), issued an executive order giving collective bargaining rights to federal employees. Federal employees cannot strike, and they cannot be compelled to pay union dues (2018 Supreme Court *Janus* decision). The primary clout that unions have is in the PUBLIC sector but there are changes on the horizon. Consider that:
  - Less than 10 percent of all workers are in unions
  - Less than 6 percent among private-sector workers

- **WEST VIRGINIA—** West Virginia Republican Governor Patrick Morrisey recently signed the Riley Gaines Act into law. The law confirms common sense, such as reaffirming male and female genders and keeps biological men out of women's restrooms, sleeping quarters, locker rooms and other private facilities. To share your thoughts with Gov. Morrisey:

  Email: Click here
  Phone: 304-558-2000
  Write: State Capitol, 1900 Kanawha Blvd. E, Charleston, WV 25305

- **CALIFORNIA—** The California GOP held its convention in mid-March and elected a new chair: Corrin Rankin. No surprise that they opted for the establishment candidate, former vice chair Corrin Rankin, rather than the MAGA supported former state senator Mike Morrell. Take a look at organization and political endorsements and you will quickly understand which ones are establishment and which ones are MAGA.

Our letters section below is devoted to the recent CAGOP convention.

THE WORLD: Events from around the globe

- **FRANCE—**Centre-left politician Raphael Glucksmann wants the United States

to return the Statue of Liberty. He shouted this to cheering supporters at a convention of his Place Publique centre-left movement.

The following politicians/celebrities have French ancestry. Let's keep the Statue of Liberty but send these folks back to France: Hillary Clinton, Julia Louise Dreyfus, Lady Gaga and Alec Baldwin.

• **IRELAND**—On St. Patrick's Day, many in Dublin were on the Ha'Penny Bridge waving Palestinian flags. The Irish government has been anti-Israel for many years, so this is not very shocking. In fact, in September 2024, Ireland, Norway and Spain recognized Palestine as a state. We encourage all Gaza refugees to relocate to Ireland.

• **SYRIA**—Guess Syrian militants are not massacring enough Syrian Christians. Last week, the European Union and the Ninth Brussels Conference on Syria, stupidly, pledged BILLIONS worth of aid to the new anti-Christian government. How stupid of these European Christians? This would be like Jewish organizations pledging monetary aid to Nazis during World War II.

Epstein's "Black Book" — Clients or Persons of Interest?

★ by Thomas Budd — Tennessee ★

Retired Los Angeles Sheriff's Sergeant — Homicide/Major Crimes/Intelligence

Jeffrey Epstein's "Black Book" may be more than a mere client's list of "elitist" men strutting the planet engaging in "sex-trafficked" young girls, it may turn out to be a list of "persons of interest" in his death!

Epstein's jail death was ruled "suicide by hanging" by the New York Medical Examiner Dr. Barbara Sampson. Her conclusions were immediately refuted by world renowned forensic pathologist Dr. Michael Baden, who concluded it was a clear-cut case of homicide, citing the breaking of his hyoid bone indicative of strangulation not hanging. This jail death reminded me of another case I conferred on while a detective at the L.A. Sheriff's Homicide; a solved case that supports Dr. Baden's conclusion may provide a way to prove homicide conclusively.

Ron Settles was a well-known African American athlete at Long Beach State University. He was arrested by Signal Hill Police Department and found dead in his cell the next morning. There was a great upheaval with some localized rioting with members of the community accusing the police of murdering him in his cell. The controversy would not relent, so the L. A. Board of Supervisors ordered L. A. Sheriff's Homicide Bureau to Investigate the matter once and for all.

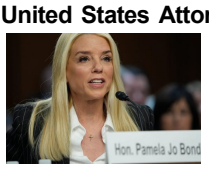
Captain Grimm assigned the case to Billy Farrington, an African American investigator. Billy was a suave, flamboyant, well-known person in the community. He returned to the Homicide Bureau at the Hall of Justice after meeting with board members. Everybody knew he'd been assigned this case, so when he entered the room about 15 us looked at him and he asked very loudly if anybody had any new ideas. It was standard practice for investigators to "brainstorm" a case when it "hit-the-wall."

I had been handling the *Twilight Zone, The Movie* manslaughter case, which involved the use of an electron microscope at the Seal Laboratory in El Segundo to determine metallurgical issues regarding the helicopter's tail rotor blade. This microscope could magnify three million times; it could make a fly's tongue look like the Rocky Mountains.

I asked Billy if they still had the jail mattress cover in evidence; It was the instrument of death in the hanging. He said yes. I told him about the Seals Laboratory and their Electron Microscope. That he could take the mattress cover to them for analysis. I told him that the mattress fibers would look like tall trees under magnification. If the victim committed suicide all the "trees" would be broken in the same direction. If he was hanged, the "trees" would have been re-broken in the opposite direction as the victim's body sank from its own weight. In clarification, if anyone tied the sack around his neck and pulled it over the cross bars of the jail cell, the fibers would break in one direction as they traversed over the bars. Then, as he lost consciousness, many of the fibers would break a second time in the opposite direction as his body sank downwards. If he killed himself, he would have tied one end of the sack to the cell's crossbars and the other end around his neck so the fiber would only break in one direction as he sank downward onto the bed not having traversed to crossbar.

The subsequent magnification of the mattress sack disclosed all fibers breaking in the same direction providing conclusive evidence of suicide. This evidence, coupled with the fact that Mr. Settle's hyoid was not broken, brought the case and its controversy to an end.

United States Attorney General Pam Bondi and FBI Director Kash Patel may want to consider a similar examination of Epstein's instrument of death, the jail "bedsheet," for a final cause of death determination.



If the "trees" (fibers) break both ways, coupled with a broken hyoid bone, Epstein's "little Black Book" then becomes a list of "persons of Interest"!

Read The Violence of the Left by Sally Zelikovsky.

GUESS ANSWER: Margaret Knight designed the machine

Margaret E. Knight (1838-1914) was always more interested in tools than dolls. Like many children not born into wealth, following her father's death Knight and her siblings had to go to work. They found themselves in a cotton mill. After witnessing a coworker's injury when a steel-tipped shuttle flew out of a loom, Knight developed a shuttle-restraining device that restrained the shuttle from moving.

Knight left the cotton mill for health reasons and gained experience in a variety of areas including upholstery and photography. Then in 1867, she began working for the Columbia Paper Bag Company in Springfield, Massachusetts. At the time, the

flat-bottom paper bags had to be cut, folded and pasted by hand. According to the *Smithsonian's American Women History:*

> Knight worked on her machine for over two years, eventually perfecting a prototype in wood before hiring a machinist to fabricate the working model needed to apply for a patent. While under construction, another machinist, Charles Annan, stole Knight's design and submitted it as his own to the U.S. Patent Office in Washington D.C. Upon learning of the fraudulent claim, Knight initiated a patent interference suit against Annan and hired a lawyer to defend her work. Knight produced substantial evidence to support her claim including drawings, notes, entries from her personal diary, and testimony from her landlady, former employer, and machinist. Knight refuted Annan's weak argument that as a woman she was incapable of understanding the complexities of the machine by describing the components of the machine and their function in extensive detail. The judge awarded Knight the patent.

She was enshrined in the National Inventors Hall of Fame in Canton, Ohio, in 2006. *Photo of Knight by her machine; taken in 1912, two years before she died.*

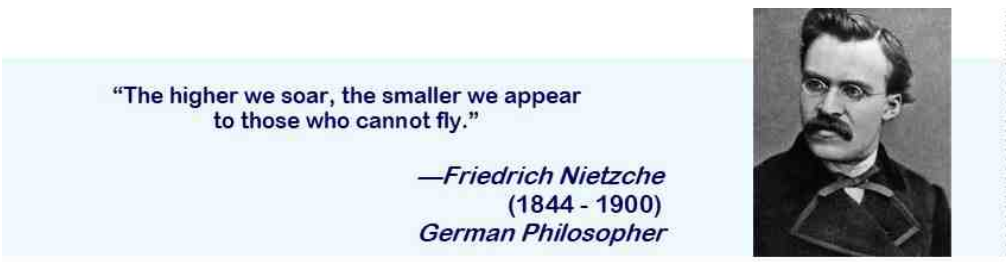
FAITH, FAMILY AND COUNTRY

Our thought for the week:

"Trust in the LORD with all your heart and lean not on your own understanding in all your ways submit to him, and he will make your paths straight."

— Proverbs 3:5-6



COMMENTS FROM OUR READERS

We received a lot of emails regarding the California GOP electing Corrin Rankin, formerly its vice chair, as their new chairman rather than MAGA-endorsed Mike Morrell.

Below are a sample of messages sent to *Patriot Neighbors* about the CAGOP vote. Read on!

FRANCINE B.—CALIFORNIA

I am not surprised the establishment wing of the CAGOP elected Corrin Rankin as their next chair. I heard from many she is a Never Trumper? I haven't donated to the RPC in years & will continue to donate directly to candidates.

Thank you, Francine, for sharing your thoughts.

RALPH W.—CALIFORNIA

Congratulations to CAGOP for their latest DEI hire!

Ralph, I don't think we should call Corrin Rankin is a "DEI hire." But to many of the base, Rankin is not MAGA.

S. K.—CALIFORNIA

Not shocked Corrin Rankin was elected by the same members that wouldn't endorse Donald Trump for prez. By endorsing Rankin the California Federation of Republican Women showed again how out of touch they are with Republican women. No wonder CFRW lost A LOT of members & clubs including my club that went independent. BRAVO TO CA REPUB ASSEMBLY 4 ENDORSING MIKE MORRELL.

Thank you, S.K., for sharing your thoughts.

SUSAN T.—CALIFORNIA

I supported Corrin Rankin & am glad she won. You supported Mike Morrell & he lost. Now we all need to come together & elect Republicans.

Agree, Susan, that we need to elect Republicans. My advice is to directly support candidates with time and money. In our opinion, the CAGOP electing Corrin Rankin over Mike Morrell … is like electing Jeb Bush over Donald Trump.

LONNIE H.—CALIFORNIA

Thank you for your interesting newsletter. Don't know how you do it every week but I appreciate it. I asked a friend who was at the CAGOP convention if he saw you. I thought Patriot Neighbors would have a booth or something. He said no. Did you attend?

Thank you, Lonnie. No, I didn't attend the CAGOP convention. I am almost deaf (since birth) and it's extremely difficult to hear in those noisy environments. Whether 1:1 conversations or listening to speakers, my head would have always been buried in a voice-to-text app.

GREGORY GANDRUD, BUDGET CHAIRMAN—CALIFORNIA GOP

You forgot to congratulate Corrin Rankin. Corrin is doing a great job for Republicans. She will make California great again. In her first hour as the new chair, she led the board in tossing one "consultant" out of his seemingly permanent board seat.

The demographics are very challenging in CA, and it doesn't help to grow the party when one faction insists on messaging on social issues that is out of step with 70% of the electorate. I love the Trump approach. We are working very hard to do the best job that anyone can do.

Thank you, Gregory, for sharing your thoughts.

BETTY CHU, ESQ.—CALIFORNIA

I went to the CAGOP convention as an optimistic Republican and after the vote realized I AM NOT A REPUBLICAN after all. I am a PROUD TRUMPER, and a supporter of MAGA and America First values.

If Corrin Rankin was so active in the Trump campaigns going as far back as 2016, I will appreciate it if anyone can produce photos, letters, articles, podcasts that show her support of Trump principles and issues, not just a photo attending an event.

I want to support any leadership that is more than a façade of MAGA, America First or Trump support. There is strength in numbers.

However, the group of Mike Morrell supporters at the CAGOP can still change CAGOP contra values if we all stay in the fight and others join us. Let's be in the CAGOP face so they cannot avoid supporting our Trump candidates.

Thank you, Betty, for sharing your thoughts, which I agree with. Great photo of you (shown on Fox News) during the 2026 RNC convention.

LAUGH, CRY OR SAY AMEN

When we lose our sense of humor, we will lose our nation. Let's laugh, cry or say amen.

- Democrats, please calm down. Elon Musk cannot become president unless he finds the guy who made Barack Obama's birth certificate.
- I visited my doctor today and he told me my sugar was too high. When I got home, I moved it to a lower shelf.
- The longest drum solo was six hours and 26 minutes and was performed by the child sitting behind me on my recent flight.
- Q: What is the difference between "completed" and "finished?"
  A: When you marry the right woman, you are complete. If you marry the wrong woman you are finished. And when the right woman catches you with the wrong woman, you are completely finished. (Sun Sherman said this at a linguistic conference.)
- Here's an idea for a TV reality show: Send socialist college students to a country that closely resembles their desired political system and leave them to survive there for one year.
- I like to party and by party I mean sit on the couch with my dog and eat snacks.
- Remember, you can't use reason or logic with people that don't know the difference between a boy and girl.
- Apparently, stress balls are not to be thrown at people stressing you out.
- I wouldn't say I never exercise. Sometimes my nose runs.
- Democrats then: Without slaves, who will pick the crops?
  Democrats now: Without illegals, who will pick the crops?
- A good woman stays by her man's side during bad times to tell him that none of it would have happened had he just listened to her.
- Not everyone can be royalty. Some of you must sit on the curb and wave as I go by.
- Those who don't learn from history are doomed to repeat it. Those who prevent history from being taught, plan to repeat it.
- My mouth waters when I smell steak. I wonder if the same thing happens to vegans when they smell lawn.
- Men go fishing for two reasons:
  - They don't have a wife to go home to.
  - They have a wife to go home to.
