

# VACA DECLARATION

On November 21, 1620, the ship "Mayflower" docked at Cape Code, Massachusetts with 101 passengers, half of them "Pilgrims" who wanted to break away from the Church of England. They are considered to be the first group of immigrants to set foot on American soil. On April 30, 1975, exactly 355 years later, hundreds of thousands of Vietnamese people left their homeland, sailed out to sea, returned to the promised land, the world was moved by the courage of the "Boat People". The United States of America extends its arms to the thin, ragged people, with a heart of steel, on fire: "Better dead than red" (Better dead than red). Whether you are the lucky ones, came to the United States in 1975. Or the path to freedom must go through years of imprisonment in the communist re-education camps in Vietnam. We are here on this second, and last, homeland for the same reason: To seek freedom and happiness for ourselves, our families and future generations. Unfortunately, our common dream is being broken! The 2020 US Presidential Election is a stain in history! Family discord between two generations! Society divided by skin color! Criminals take the throne and heroes take down! The Vietnamese American Conservative Alliance (VACA) was born with the following principles and goals:

1. VACA believes that the United States of America is a nation of many ethnicities, races, cultures, and religions. On the vast, sweet land, which God has given us as the last homeland: "All Lives Matter", on that belief we oppose all forms of harassment. one color or race.
2. VACA has absolute confidence in the "Declaration of Independence" ratified and promulgated on July 4, 1776. And disagrees with "Project 1619" (Project 1619). The New York Times, which changed American history, is now being taught in 4,500 schools nationwide. We cannot allow our 245-year history to be erased by a group of far-left reporters from The New York Times. America's tax dollars cannot be used to poison our children.

3. VACA firmly believes in the maxim of the nation, and the United States of America: "In God We Trust". God can be God, Buddha, Mohamad, depending on the beliefs of each individual. Therefore, we do not accept the deification of criminals for political purposes, earning votes of any party. Smashing statues of God, famous people, and erecting criminal statues are acts that bring society back to its primitive age and need to be condemned.

4. VACA believes in the freedom of expression enshrined in the First Amendment of the United States Constitution. This principle will not allow the government or the big tech giants (Big Tech) to deprive the people, in any form. No one is allowed to have our mouth shut, except we cowardly accept silence.

5. VACA believes that social safety is an important factor for the development of the country. In that spirit, it does not accept to put politics above the happiness of the whole people. Advocating rather than cutting the Police budget is the goal.

6. VACA respects people of different opinions. We do not see violence as a different solution. Non-violence is the motto, let's learn together to be aware of using the "Vote" as a weapon against injustice and violence. With faith in the above goals. VACA wishes:

1. Welcoming the participation and cooperation of all Vietnamese & American friends with the same goals and aspirations. Regardless of party, religion, or skin color.

2. Together we will raise our voices through mass media such as television, radio, Facebook... With your help, we will be present in each state and city on nationwide United States.

3. We will call on and mobilize Vietnamese compatriots to support candidates who share the same political stance and views. The start will focus on the 2022 midterm elections and will be followed by the 2024 Presidential election.
